LIVING FIRE

By PAUL AGNEW | DESIGNS®

Wood Fire

W Wood

Manufactured in both cast iron and steel, our range of wood fireplaces combines traditional design and modern technology for a beautiful and efficient solution.

Choose from standard or guillotine door access, as well as tunnel view design, and a bio ethanol accessory so you can enjoy the ambiance of flickering flames in warmer months.

Verona

twelve hundred guillotine

Exclusively brought to Living Fire by Paul Agnew Designs.

The stunning Verona wood fire is the perfect example of European luxury, featuring a large panoramic guillotine glass door, this contemporary wood fire allows for superior views of the flame and can be integrated into a multitude of design environments.

With its sleek design, this inbuilt wood heater is sure to create a focal point in any room.

Producing brilliant radiant and convection heat, as well as featuring our latest technology in heat distribution, this unit can be integrated into the most traditional of design aesthetics.

Its own air transfer system captures heat from the cavity that would otherwise have been lost in your chimney, allowing you to duct the heat off to other areas of your home.

This functional design maximises the efficiency in your home while allowing for the flexibility to be used as an open fireplace or slow combustion wood heater.

Features

- Rise-and-fall glass door – conveniently opening on a smooth pulley system.
- Improved strength and performance with ceramic lined combustion chamber.
- Primary, secondary and tertiary combustion with control
- Child safety lock available on glass door
- Dual combustion heating system: radiant and natural convection
- Multi room heating advantage
- Heat resistant glass withstands temperatures of 800°C.
- Minimalist frame with blackened glass edge for modern design.
- Optional external primary air intake
- Heats up to 270 sqm
- Thermal efficiency 80%

Vittoria

nine fifty guillotine

Exclusively brought to Living Fire by Paul Agnew Designs.

The Vittoria Nine Fifty offers the sleek elegance of a panoramic wood heater.

With a wide view of the fire and a convenient and easy to use rise-and-fall glass door, the Vittoria is sure to add a statement to any space.

With an exceptional heat output and minimalist design, this inbuilt fireplace offers the flexibility of an open fireplace or slow combustion heater.

Features

- Rise-and-fall glass door – conveniently opening on a smooth pulley system.
- Improved strength and performance with ceramic lined combustion chamber.
- Primary, secondary and tertiary combustion with control
- Child safety lock available on glass door
- Dual combustion heating system: radiant and natural convection
- Multi room heating advantage
- Heat resistant glass withstands temperatures of 800°C.
- Minimalist frame with blackened glass edge for modern design.
- Optional external primary air intake
- Heats up to 210 sqm
- Thermal efficiency 80%

Vittoria

nine fifty tunnel guillotine

Exclusively brought to Living Fire by Paul Agnew Designs.

This stunning double-sided fire highlights the elegance of a panoramic wood heater sought after by those who prize a minimalist design and an incredible heating performance.

The Vittoria 950 Tunnel will make an impressive statement in any space, with smooth guillotine style doors, and a ceramic brick lined chamber, this unit emphasizes the impeccable craftsmanship direct from Europe.

With a playful design, this range of wood fires creates a warmth and ambiance in any centre space while also providing the core elements of a wood fire.

Features

- Rise-and-fall glass door – conveniently opening on a smooth pulley system.
- Improved strength and performance with ceramic lined combustion chamber.
- Primary, secondary and tertiary combustion with control
- Child safety lock available on glass door
- Accessibility from both sides of the firebox
- Dual combustion heating system: radiant and natural convection
- Multi room heating advantage
- Heat resistant glass withstands temperatures of 800°C.
- Minimalist frame with blackened glass edge for modern design.
- Optional external primary air intake
- Heats up to 210 sqm
- Thermal efficiency 80%

Tivoli

eight hundred inbuilt
